**Mobile Network (3G, 4G and 5G) Connectivity**

Due to school-based policy, 3G, 4G and 5G compatible devices are not allowed into school.

This policy has been made to ensure that our school network is not compromised and that students are not able to access an unfiltered internet connection whilst at school.

Unfortunately, there is no way to block a cellular connection from iPads with this capability. The use of a VPN is not allowed as it inhibits student access to the school network.

**Security, Insurance and Finance**

While the BYO iPads will be securely stored during break times, parents are encouraged to seek personal insurance.

Check with your preferred insurance company (or even the iPad reseller) about your personal insurance at home and, to and from school, for your iPad.

The school cannot enter into any finance arrangements with families for the iPads.

**Damage in transit**

All iPads will require a protective case when being transported. This will be an additional cost but is well worth the outlay as it is the best form of insurance for iPads and will often protect the device from impacts and accidents. An additional sleeve to place the iPad cover in is also recommended.
